Recommendations Regarding Arms for the United States Army and Navy.

GUNS PROPOSED FOR USE

Report of the Chief of the Ordnance Department of the United States Army—Some Recommendations.

WASHINGTON, Nov. 4.—General Flagler, chief of ordnance, in his annual report to the secretary of war says: The labor involved and difficulties to be surmounted in supplying fortifications with new model disappearing carriages for large guns is perhaps greater than that of supplying the guns themselves. Unfortunately this work is some years behind the guns. The department is in great need of well equipped sea coast carriage works for this work, and the report recommends an appropriation for further enlarging the facilities for the manufacture of carriages at the Watertown arsenal. The department thus far has completed but two 8-inch, one 10-inch and one 12-inch breech loading, steel rifled gun. The first 8-inch gun was tested with German smokeless powder with a significant result, 50 pounds of the compound giving the projectile a higher velocity with the same pressure as 125 pounds of black powder. The time allowed the Pneumatic Dynamite Gun company for the delivery of the 10 guns being much has been extended to Jan. 1 next, for first deliveries, and July 1 for the last. Among estimates submitted \$135,000 for the equipment of the south wing of the army gun foundry and \$1,122,000 for oil-tempered and annealed steel for 8, 10 and 12-inch guns, including the parts required for the manufacture of the 16-inch gun.

The recent improvement of the resisting power of ships' armor would seem to still further emphasize the already recognized necessity for guns of this caliber, as it would be foolish to conclude the improvement in the resisting power of armor has reached the final limit, and as much time required for completing a type gun of such high power as may have become absolutely necessary for overcoming such resistance, the sooner work is commenced the better. Other estimates are for steel 12-inch sea coast mortars, \$725,000; their carriages, \$449,500; carriages for new 8, 10 and 12-inch guns, \$1,835,000; enlargement of the gun carriage plant at Watertown, Mass., \$161,000; armor piercing projectiles, \$20,000; deck piercing 12-inch shells, \$100,000; alteration 15 and 16-inch carriages, \$100,000. The report describes at length exhaustive experiments made by the department with magazine main arms, including the latest European models. On this subject the report says: Reports from our army how an expert soldier can fire the present service Springfield, single loader, with the accuracy generally needed in action is about 20 times per minute. As far as rapidity of firing alone is concerned, these reports reduce somewhat almost universally the estimated necessity for an immediate change to the magazine system. It is important to state that up to the present time, investigations made and knowledge gained by this department, do not demonstrate so much excellence in the magazine arms which have been adopted by foreign nations as was expected, and have not shown such perfection in any one of them as would warrant its adoption for our services. It is hoped this country can produce a better arm, and until it has been demonstrated that it cannot, I would recommend a change from the excellent single loader now in service to the magazine system. No effort should be spared to arrive at a satisfactory magazine arm. The new calibre 83, Springfield, is said to have been very successful with smokeless powder.

The Maverick Bank Failure.
BOSTON, Nov. 4.—The Journal says of the Maverick bank failure: "Speculation is one word that explains all; speculation in stocks and grain with Maverick bank's funds backing deals. The first great speculation of the bank was by French & Foster in New York and New England railroad stocks. It was successful from a financial point of view, but in success lay concealed the ultimate ruin of the bank. In New York and New England a great deal of the bank's funds were used to a startling degree."

The Chinese Earthquake.
YOKOHAMA, Nov. 4.—The damage caused by the storm of Sept. 16 is very serious. It is now definitely known that 82 lives were lost, that 3,700 houses were destroyed and 700 vessels were carried out to sea or sunk. Great damage was caused to crops. The loss to property is roughly estimated at \$1,000,000.

PLENTY OF TROUBLE.

Phillipsburg Peep's in a Fight—Things Badly Mixed.

Special to the Standard.

PHILLIPSBURG, Nov. 4.—If there ever was a small town in trouble with very little or no clear sky in sight that town is Phillipsburg, and the board of aldermen held a meeting last night and passed ordinances creating the office of city marshal and police magistrate. They accept the late decision of Judge Durfee as a correct interpretation of the law, and will straighten the matter out in the best manner possible under the law; but from present indications there are breakers ahead that may wreck the whole incorporated craft, and it is given out tonight that nearly every man who has been fined by Judge Connolly will commence concerted legal action to recover the fines, basing their claims upon the hypothesis that as he was not a police magistrate he had no right to impose fines. It is also said that there is a movement on foot by the license payers to refuse to pay their license, and hire a lawyer and make a desperate attempt to prove that the town was not legally incorporated, and mandamus proceedings are also spoken of against the county treasurer collecting any of the city tax. However it may all terminate, there is plenty of trouble ahead for those interested in upholding the incorporation, and plenty to talk about, now that the election is over.

SHOT BY AN OFFICER.

Bill Howard Trapped and Killed While Trying to Escape.

REDDING, Cal., Nov. 4.—Bill Howard, who with Abe Jones is charged with robbing a stage between Lake View and Redding on Oct. 7, also suspected of being concerned in the stage robberies of Oct. 19 and 22, was shot and killed at a father's house, three miles from Redding last night by an officer who had been watching for him. A week ago today, Howard, Jones and a man named Jack Rick were arrested near Alturas, Modoc county, but Jones and Howard escaped. Howard's father was arrested and an officer concealed in the house when Howard went there, shot him while he was turning to run away when he discovered the fact. Rice made a confession implicating Howard and Jones in six sensational robberies, which occurred lately. The search for Jones is being continued.

THE NEWS IN LONDON.

Comment of London Papers on the Result of the American Election.

LONDON, Nov. 4.—Commenting on the election in the United States the Daily News says: "It is not easy to draw a moral where the most important contests yield diametrically opposite results. McKinley's victory is the most striking event for Europe, but may easily be exaggerated or misunderstood. He was probably elected, not as a protectionist, but as a moderate opponent of free silver."

The Chronicle says: "The election of Flower cannot be considered a counterblast to the result in Ohio, because it was secured by a corrupt means as ever American political records can show. All honest people desirous of decent government, wanted the election of Fassett, but Tammany hall was too much for the reformers. It is now probable we shall hear of McKinley as a presidential candidate. To certain republicans who stand on the high tariff platform McKinley's election indicates the overwhelming power of the money monopoly and vested interests in American politics."

The Standard says: "The result will cause a waiting policy on the side of republicans, who may hope in November next to take advantage of some democratic mistake or some sudden accession of popularity on the part of the government to reverse the decision now recorded."

The Times thinks it is possible that a democratic victory in Ohio would not have pleased all sections of the party because it would have foreshadowed a schism at next year's convention. It is doubtful whether McKinley's achievement is striking enough to vindicate his policy or to advance his claims to the presidential nomination. It may be taken for granted that the result will thrust into the background the United States government policy of bullying Chili.

BRIGGS' CASE.

Charges of Heresy Against Him Dismissed by the Presbytery.

REPORTS OF VICTORY

New York Goes Solid For Flower, and the Legislature Evenly Divided.

NEWS FROM OTHER STATES

Iowa Gives Boies a Flattering Majority—McKinley's Success in Ohio—Republican Pennsylvania.

NEW YORK, Nov. 4.—At midnight Associated Press returns for New York shows 15 democrats elected to the senate and 17 republicans. There is some doubt about two republicans and one democrat. In the assembly there is a tie. On these figures the republicans have majority on a joint ballot.

NEW YORK, Nov. 5.—The Herald's returns from the state say the senate is a tie and the house, republicans, 63; democrats, 59. Flower's plurality is given as 46,448.

IN IOWA.

Democrats Carry the Whole State Ticket—Boies' Big Majority.

DES MOINES, Nov. 4.—The State Register has complete returns from 83 counties. These give the net democratic gain 8.6. If the gain is kept up in the remaining 16 counties, as probably it will, Boies' plurality will be in the neighborhood of 8,000, a gain of 2,000 over two years ago. If Boies' plurality is 8,000 the rest of the democratic ticket is elected by small pluralities. The republicans have some hopes for Van Houten, lieutenant governor. They also claim Sabin, republican, for superintendent of instruction. The democrats claim the whole state ticket. The republicans control the house, the democrats the senate. The Farmers' alliance candidate, Westfall, for governor, received about 15,000 votes. The prohibition vote is not reported except in a few instances, but it will probably be very light.

BY HIS OWN HAND.

Inquest in the Case of Mr. Fish—Progress of the Strike at the Sand Coulee.

Special to the Standard.

GREAT FALLS, Nov. 4.—An inquest was held at Powers undertaking rooms this morning at 9 o'clock over the remains of F. S. Fish, the attorney who was found dead in his bed in a room at the Park hotel last yesterday afternoon with a bullet hole through his heart. The post-mortem examination showed that the bullet had passed through the heart and was lodged in the back. The coroner's jury returned a verdict that the dead man had come to his death by a bullet fired from a revolver in his own hand. Mrs. and Mrs. W. S. Spaulding, brother-in-law and sister of the dead man came over from Helena this afternoon. The remains were embalmed and shipped to New London, Ohio, for interment.

The strike of the drivers and shovellers at the Sand Coulee mines is said to be growing serious. The men struck yesterday for \$3 per day and nine hours' work. They have been receiving \$2.50 a day for nine hours, but it is claimed that the company was about to increase the time of labor to 10 hours. It is reported that a telegram was received by Superintendent Burrell from St. Paul to-day, stating that unless the strikers returned to work tomorrow, they would be discharged, and their places filled by other men. It is thought, however, that matters will be amicably settled.

J. N. Cutright was severely injured about 8 o'clock this afternoon by being thrown from a carriage. Mr. Cutright was driving down Central avenue when the team of horses which he was driving became frightened at an electric motor and ran away. The carriage was smashed into pieces and the driver thrown into the street, falling upon the back of his head and cutting a deep gash. A physician was summoned and the wound was dressed.

A. L. Mohler, general manager of the Great Northern, arrived in this city this afternoon at 5:30 o'clock by special train from the east. Mr. Mohler will leave for Neilhart and Barker at 5 o'clock tomorrow morning on a tour of inspection of the new road.

MURDERED HIS CHILD.

A Brutal Father Under Arrest at Topeka.

Kansas.

TOPEKA, Kan., Nov. 4.—Frank McLain, a scavenger, is under arrest for the murder of his 9-months-old son. The child died yesterday. McLain has three daughters who told in school yesterday that their father had taken the baby by the heels and pounded it against the door. The story was spread by the school children and this morning the body was taken charge of by the police and a post-mortem proved beyond doubt that the child had been treated in the most brutal manner. Its face was covered with ecchymosis, the left ear deeply gashed, the body bruised in several places, and the left leg broken. The coroner's jury decided death was the result of wilful and malicious inhuman treatment at the hands of McLain. As soon as the inquest result was generally known, a mob began to collect around the city jail, clamoring for the murderer's life. Officers assured the leaders McLain was not confined there. A committee searched the jail and reported the prisoner not to be found. The mob then made a search of the court house. The sheriff assured them he was removed beyond their reach. It is believed McLain is sequestered in the insane asylum and the mob may determine to search that place.

Our Invincible Navy.

WASHINGTON, Nov. 4.—It is reported that the revolutionary movement in Brazil, accompanied by a declaration of martial law and the establishment of a dictatorship, is likely to cause another demand upon the already strained resources of the navy, for it is regarded necessary for the protection of American interests that United States naval vessels be at hand there, in case of a formidable outbreak. The only vessels attached to the South Atlantic station in the vicinity of Rio de Janeiro are the Essex and the Tallahassee. The first is an old wooden cruiser; the second is old and worn out, and offered for sale. The Boston is somewhere off the Brazilian coast en route to the Pacific, but it is not probable she will be detained. The Yorktown, however, was at Bahia, Brazil, Saturday, and probably will be ordered by cable there or return to Santos, notwithstanding the fact that she is also on her way to the Pacific station. Meanwhile the work of repair on the Newark at Boston is being pressed, and in case of emergency Admiral Ciesler's flagship, the Philadelphia, now on her way to the West Indies from New York, could be ordered by cable to proceed to Rio de Janeiro.

Revolution in Brazil.

LONDON, Nov. 4.—A dispatch received here from Rio Janeiro, Brazil, brings news of what seems to be another revolution. Congress, the dispatch says, has been dissolved and martial law proclaimed at Rio Janeiro and throughout the provinces. The cablegram announces that a dictatorship has been established in Brazil.

Fallor dispatches regarding the revolution announced to have broken out in Brazil are anxiously awaited here by financiers and merchants who have large interests at stake in that country. Hope is expressed that the alarming report received may not turn out as serious as at present outlined.

A cipher dispatch from Rio de Janeiro to Lisbon attributes the crisis there to the action of the Brazilian congress in passing a bill depriving the president of the rights of veto.

American Cattle.

BERLIN, Nov. 4.—The Bremen senate has issued a decree permitting the importation of British and American cattle for breeding purposes, on the presentation of a certificate of origin and satisfactory report from state veterinarian. Cattle imported for other purposes than breeding are isolated one month at the expense of the parties owning the same.

MANY SKULLS CRACKED

WANTED DILLON'S SCALP

Police Act as a Body Guard for the Speakers—More Than a Hundred Persons Seriously Injured.

DUBLIN, Nov. 4.—Dispatches from Waterford, where the convention of the National federation is being held, say great excitement prevails. The streets are crowded with uproarious mobs ready for any kind of disturbance. Timothy Healy, who was horsewhipped yesterday by McDermott, a nephew of Parnell, was one of the speakers. He said he had not been deterred by violence from pursuing the course he mapped out for himself, and repeated language in reference to the widow of the Irish leader which he used at Longford Sunday, and which led to his chastisement at the hands of McDermott.

Dillon, on arriving at Waterford, was received with mingled cheers and hisses. Three hundred police guarded the federation delegates on their way to the convention. Police repelled repeated charges by the mob. Parnellite sympathizers tried to rush through the entrance of the city hall, but were beaten back. Dillon confirmed O'Brien's Boulogne revelations, and added that the men now sailing him traitor telegraphed him while in New York, offering him the leadership in succession to Parnell. Harrington, Redmond and other prominent Parnellites joined in the request which was made after he declared against the leadership of Parnell and all promised if he (Dillon) took the chairmanship, they would be his loyal followers. He had not done anything since.

Dillon left the convention hall on the way to the railway station, guarded by police and a hundred priests. A mob followed and kept up a continuous attack until Dillon obtained shelter in the station. A number of skulls were cracked. Thirty delegates while crossing the toll bridge were thrown to the ground and trampled upon, and many were badly hurt and bleeding profusely when rescued by the police. Several thousand Parnellites held the approaches to the convention hall, and everywhere struck down opponents. The whole quays, a mile in length, was the scene of savage fighting. Many persons were taken to the hospital.

It is estimated 150 persons were seriously injured and many others badly injured during the fighting.

DUBLIN, Nov. 4.—The ladies of Longford have decided to present McDermott a silver whip.

DILLON AND O'BRIEN.

Redmond and Harrington Make a Statement to the People.

DUBLIN, Nov. 4.—John Redmond and Timothy Harrington have issued a statement in reply to O'Brien's recent revelations in connection with the Boulogne negotiations. They characterize O'Brien's statement as artful, dishonest misrepresentation, a shameless breach of confidence and a wanton outrage on the memory of the dead leader. They accuse Dillon and O'Brien with suppressing various letters which passed between the Parnellites and Messrs. Gladstone and Morley. The leaders also allege O'Brien was not satisfied with the premises of the Liberals and in support of their statement challenged him to publish a letter which they say he wrote to Morley, begging him to amend his assurances and Morley's reply in which he refuses to alter a single comma.

SAN FRANCISCO WANTS IT.

An Effort to Secure the National Republican Convention.

SAN FRANCISCO, Nov. 4.—A large and enthusiastic meeting, including nearly all the prominent democrats and republicans in the city, was held to-night to consider what inducements San Francisco could offer to persuade both political parties to hold their national conventions here next year. Mayor Sanderson called the meeting to order, and Irving M. Scott was elected chairman. A long discussion followed. M. H. de Young called attention to the offers of eastern cities to pay a large part of the expenses of the delegates, and said he thought it would be necessary for success that San Francisco should pay all expenses, including transportation, hotel bills, etc., of the entire convention of either one or both political parties. It is estimated this will amount to a hundred thousand dollars for each. After de Young's speech the meeting unanimously passed the following resolution: WHEREAS, The republican national committee meets in two weeks and this body has not time to formulate immediately the various inducements that the citizens of this city will offer for holding the republican national convention in this city.

Resolved, That M. H. de Young, California's representative in the republican national committee, be authorized to offer such inducements as in his judgment will procure the holding of the next national convention in this city, and we pledge ourselves to sustain and carry out all such offers by every means in our power. The democratic national convention will be considered at a future meeting, there being no necessity for haste in that case.

Trouble in China.

SAN FRANCISCO, Nov. 4.—The following Chinese advices have been received per steamship City of Janeiro: "Particulars of a serious riot in the province of Fukien have reached Hong Kong. The scene of the trouble was in Tienhua, which was attacked by 3,000 insurgents. One unfortunate fell into the hands of the insurgents, who nailed his hands and feet to the board and cut him up piecemeal. For three days the city held out. The insurgents seized a favorable moment to send a large force under cover of their own fire to storm the defenses. A bloody struggle ensued, resulting in favor of the attacking party. They liberated all prisoners. At last accounts 1,000 imperial troops were on the march against the rebels."
